Oral Chelate combines vitamins and minerals in a specialized formula containing the powerful cleansing ingredient EDTA.

Research shows that our bodies need a good supply of vitamins and minerals to achieve optimum health.

Mineralized seaweed harvested from the pristine waters off the coast of Northern Ireland provides the powerful calcium source for Oral Chelate. Calcium is a tremendous alkalizing agent that can help to neutralize acid in the body.

Directions for use

Take 3 caplets daily in a divided dose with meals as a dietary supplement.

Protect from heat, light, and moisture. Store at room temperature. For adult use only. Always consult your healthcare professional before taking any dietary supplement.
